7. Citizens' Forum

Mayor Arnold called on citizens who have signed up to speak during the forum.

Rick Figert, resident of Hermitage V at 417 Jones Ct, addressed a complaint about a storm water pond on his property. The water does not drain very quickly and is causing an excessive number of toads reproducing and covering his property. Mr. Figert stated that he had spoken with Terry Russell on this matter and that he was being very helpful. Mr. Mazzarino let the Council know he has walked the property in the past with DEQ and DEQ stated the location met standards. Mr. Dalton asked Mr. Figert how long the water ponds in the forebay and his response was eight to ten days. Mr. Dalton stated the stormwater management in the subdivision is under the purview of the state, but Town staff will investigate the matter for him.

Rick Figert, resident of Hermitage V at 417 Jones Ct, spoke again. He wanted to address the concrete spalling on aprons and sidewalks in his subdivision. Mr. Russell stated the staff has spoken with engineers from DR Horton about a list of properties that have been looked at. The Town staff will email Mr. Figert information on the progress of this discussion.

Matthew Holcomb, resident at 728 Weeks Ct, spoke about the Bond Release for DR Horton in Shenandoah Crossing. He stated the concrete was eroding on his driveway as well as sidewalks in the subdivision. He was told by D.R. Horton that he was to avoid using salt for snow removal for the first year. He obliged, then used salt the second year and it has already started to erode. Can the Town withhold the bond for this reason? Mr. Dalton stated the bonds are held for public improvements and not for personal property, so the bond can be withheld for the sidewalks and aprons, but not his driveway. Mayor Arnold suggested Mr. Holcomb speak to neighbors and come together to speak with DR Horton about the issues. The Town staff will email Mr. Holcomb information on the progress of the public locations in his subdivision that are being looked at by D.R. Horton.

8. Consent Agenda

Mr. Tibbens moved to approve the consent agenda as presented. The motion passed by voice vote.

9. Unfinished Business

Proposed FY26 Budget

Mr. Dalton stated there was a public hearing last month for the proposed FY26 budget and the only item he wanted to highlight was the real estate tax rate going down from 0.2 to 0.139/ \$100 of assessed value

Ms. Gibson moved that the Council of the Town of Berryville adopt the **attached budget for fiscal year 2025-2026, an approved copy of which shall be incorporated into and become a part of the official minutes of this meeting, and further the funds as set forth in this approved budget shall hereby be appropriated for fiscal year 2025-2026. The motion passed by voice vote.**

Berryville Code Chapter 17 Review

Mr. Dalton stated there will be a work session on the Berryville Code Chapter 17 Review on June 30, 2025. Council discussed the matter briefly and Mr. Dalton let them know he will integrate Council suggestions into a draft to have available for them at the work session.

Bond release request from DR Horton

Mrs. Petti informed Council that the bond release request from DR Horton is approaching the 1-year mark on July 1, 2025. This would be a bond release for erosion and sediment control and public improvements. The Council discussed this matter and decided to postpone the decision to release the bonds pending response from DR Horton about warranty items. Mr. Dalton asked that a letter be signed by Mayor Arnold to present to DR Horton.

12. Staff Reports

Director of Community Development, Mr. Russell stated the Town staff had prepared a draft revised Annexation Agreement-BAP review schedule. If the Council agrees to this process, the Town will need to appoint two persons to serve on a joint Town/County Annexation Agreement Amendment Review Committee.

Under the Public Utilities report, Mr. Dalton addressed the HAA5 water violation. Most recent test results were below the MCL (maximum containment level), and the running annual average level is no longer a violation. He advised the third quarter will likely see higher values because of the heat.

Director of Community Development, Mr. Russell spoke about Virginia Senate Bill 974, which concerns the means by which subdivisions and site plans are approved. Approvals would all go through an agent that was chosen by the Council, not the Planning Commission or Berryville Area Development Authority.

Bond release request from DR Horton

Prepared By

Jean Petti

Background/History/General Information

DR Horton has requested full release of remaining bonds for Hermitage V, Fellowship Square, and Shenandoah Crossing subdivisions. Per *Town of Berr., Subdivision Ordinance, July 2024, Art. VII- Performance Surety*, these bonds are normally held for a minimum of one year. This date is typically interpreted to refer to one year after the acceptance of the streets by Virginia Department of Transportation, which occurred July 1, 2024.

Findings/Current Activity

The current amounts held are:

Hermitage V:	\$130,714.38, Erosion and Sediment Control \$ 568,732.29, Public Improvements
Fellowship Square:	\$ 28,813.00, Erosion and Sediment Control \$ 351,423.30, Public Improvements
Shenandoah Crossing:	\$ 217,361.00, Erosion and Sediment Control \$ 5,155,365.00, Public Improvements

Community Development Director Terry Russell, consulting engineer Mike Artz of Pennoni, and Public Works Director Rick Boor performed site visits/surveys to determine any repairs that may need to be made before full bond release. DR Horton performed a site visit 6 June. A letter was mailed and emailed to DR Horton on 13 June requesting a response in time for Council action at 8 July Town Council meeting. Terry Russell and Jean Petti met DR Horton on-site at Shenandoah Crossing and Fellowship Square on 17 June to review conditions. On Monday, June 30, an additional reminder email was sent that Town Council would be reviewing this matter at the 8 July meeting.

Other Considerations

Based upon current market prices and notes from the walkover, the Town expects replacement of driveway aprons, sidewalk, curb and gutter, crosswalks, and stop bars for Fellowship Square and Shenandoah Crossing to amount to \$80,860, and \$47,690 for Hermitage.

With a 25% contingency, the total amounts would be:

Fellowship Square & Shenandoah Crossing = \$101,075
Hermitage = \$59,613

Report of the Department of Public Works

July 2, 2025

General Information

Stuart M Perry was the apparent low bidder on this year's paving and milling offering. Mr. Dalton and Mrs. Poulin are reviewing the bids. As soon as required notices are provided, the contractor will mobilize in accordance with the approved project schedule.

Water

The water improvement project for Bel-Voi has been completed, and the base asphalt was installed in all the ditches last week. This project went very well and the contractor did an excellent job throughout the project.

The water improvement project for Crow Street is underway. The contractor is making good progress and this project should be completed the end of the week of July 7th.

We had one water related issue this past month. The water service that supplies water to Rose Hill Nursing Home developed a leak. We were able to make a repair on the meter setter without interrupting the service to the building.

Sewer

We experienced no sewer related problems during the last month.

Water Treatment Plant Activity

All water quality results are available at <https://vadwv.gecsws.com/>

Testing results from samples collected on May 14, 2025, returned results of 0.031 mg/L and 0.027 mg/L at monitoring locations on Dunlap Drive and McNeil Drive, respectively. These samples, along with tests collected in February, show a significant reduction in HAA5 formation. Additionally, we are now in compliance with the Virginia Department of Health with a Running Annual Average of 0.054 mg/l which is under the Maximum Contaminate Level of 0.060 mg/l. We continue to monitor the condition of the water quality with non-compliant sampling. The value of that non-compliance HAA5 sample within the Distribution System on June 4, 2025 was 0.040 mg/L.

As per the Corrective Action Plan we have set up with the health department, we have collected core samples from our filter media for analysis. These samples were sent to a WesTech Engineering lab, and the report will be turned in to VDH prior to the September deadline. No deficiencies were found with the current state of the filter media, according to the report.

Wastewater Treatment Plant Activity

Inboden continues to operate the facility with care and consideration, completing monthly preventive maintenance on equipment to ensure pumps and motors are operating efficiently. Annual calibrations were completed as scheduled, all unit conditions and performance were within specifications.

To Whom it may concern,

We hope this message finds you well. We are writing to request a change of hours for Berryville Muay Thai at 308 Breckinridge Ct. Our goal is to continue to foster and grow our small community and work towards owning our own commercial space.

We intend to use the extended hours for private and small group lessons during the morning weekday hours as our current hours limit us to morning private lessons during summer hours only.

We request that the hours be adjusted to Monday thru Friday 9am-1pm and 6pm to 8pm alongs with Saturdays from 10-12 all year round. This will allow our members to have more flexibility for scheduling private and small group lessons throughout the year. We will continue to have the members park in the Martins parking lot at 409 North McNeil Rd with our continued standing agreement during session times to limit the traffic in and out of the neighborhood.

To ensure the comfort and safety of our clients during the summer and winter hours, portable heaters and a portable AC unit have been installed into the garage to handle the extreme temperatures. Sound proofing has also been installed to prevent any noise that may emanating from the garage space. The garage doors will continue to remain shut during hours of operation and members will enter and exit through the front door.

Sincerely,

Matthew and Deborah Renzi

(2/01) SECTION 315 – HOME OCCUPATIONS, HOME OFFICES

315.1 INTENT

The Town Council intends to allow Home Occupations and Home Offices in the town to foster economic activity. Through the application of this Ordinance, the Town Council intends to preserve the sanctity, tranquility, value, appearance, and ambiance of the residential neighborhoods, residential units, or residential uses in the Town and to prevent, eliminate, or discontinue home-based businesses that negatively impact residents living near, around, or next to the site of the home-based business.

315.2 ALLOWANCE OF HOME OCCUPATIONS AND HOME OFFICES

- (a) Under the terms of the Section, a Home Office may be conducted by right in any dwelling unit in any residence in the Town.
- (b) Home occupations are allowed in residences either by right or by Special Use Permit as permitted in a given zoning district.

- (a) The practitioner of the proposed Home Occupation or Home Office shall file a zoning permit application with the Zoning Administrator. The application shall include a description of the business to be conducted, the square footage of the dwelling unit and the square footage to be used for the Home Occupation or Home Office, and the names and addresses of the proposed owners.
- (b) A Home Occupation or Home Office may be conducted within a dwelling unit or accessory building only so long as the business use remains incidental and secondary to the use of the dwelling unit as a place of residence. The Zoning Administrator shall determine if a Home Occupation or Home Office is not, or stops being, incidental and secondary to the use of the dwelling unit as a place of residence if and when Town officers, or residents living near, around, or next to the dwelling unit used for a Home Occupation or Home Office may hear, see, smell, or detect the existence of this use, in such a manner as alters the residential character of the zoning district in which the Home Occupation or Home Office is located. In making this determination, the Zoning Administrator shall rely on the intent Section of the respective zoning district regulations, the Intent Section of this Article, and any public affidavits filed by such residents. If the Zoning Administrator determines that due to growth or change in the Home Occupation or Home Office, the Home Occupation or Home Office is no longer consistent with this Article and other relevant provisions of this Section, the Zoning Administrator may revoke the zoning permit issued to the person conducting the Home Occupation or Home Office. The person conducting this use shall cease operation after forty-five days written notice mailed by certified mail. During this time period the business owner may apply to the Board of Zoning Appeals for a determination of the Zoning Administrator's decision.

Section 315 – Home Occupations, Home Offices

- (c) The Town Treasurer shall refuse to issue a business license to any person conducting a Home Occupation or Home Office that the Zoning Administrator certifies is in violation of this Article.
- (d) No vested rights shall accrue to any person as to a Home Occupation or Home Office that begins as conforming to this Article and through growth or change becomes inconsistent with this Article and related provisions of this Section.

FINANCE AND ADMINISTRATION

TO: TOWN COUNCIL
FROM: CYNTHIA POULIN, TREASURER
SUBJECT: CHARGE OFF OF UNCOLLECTABLE PERSONAL PROPERTY TAXES
PUBLICATION OF DELINQUENT TAXES
DATE: 7/3/2025
CC: KEITH DALTON, TOWN MANAGER

Each September Council passes a resolution charging off uncollectable personal property taxes. Section 58.1-3940 of the Code of Virginia, 1950, as amended, states that the collection of local personal property taxes shall only be enforceable for five years following December 31 of the year for which such taxes were assessed.

Previously we published a list of delinquent taxes in the *Winchester Star* and posted a copy of the published list in the Town Business Office.

VA Code §§ 58.1-3921 through 58.1-3924 address the publication of delinquent taxes. The delinquent list reflects the account status as of June 30 (§58.1-3922). Unpaid taxes previous years may also be listed unless the statute of limitations has run out. For taxes other than Real Estate, the current year delinquencies plus five years may be listed; Real Estate delinquencies may be listed for 20 years. The Treasurer has the discretion to remove the names of those people who pay before the list is published or who are current on a valid installment plan.

Our delinquent list is scheduled for publication on the Town of Berryville website on September 10, 2025. Legally we do not have to remove anyone who pays after June 30.

VA Code § 58.1-3924 states that the governing body may cause this list to be published in a newspaper of general circulation in the town or to be made available on any internet site maintained by or for the town. Over the past couple years there has been little to no response when names are published in the newspaper. It is my recommendation to publish the names on the Town of Berryville website.

Kevin Appel, Legal Counsel for the Treasurers' Association of Virginia pointed out that should Council decide to put the list on our website, he suggested a disclaimer along these lines. "Delinquent taxes on this list conform to the facts as they existed on September 10, 2025, pursuant to Code of Virginia §58.1-3922".

If you have any questions please call me.

Item Title

Stormwater Retention Basin in Hermitage V

Prepared By

Jean Petti

Background/History/General Information

During the Public Comment period of the 10 June Town Council meeting, a resident of Jones Court shared a concern regarding a stormwater bioretention forebay located on his property but maintained by DR Horton. Town Council instructed Staff to facilitate communication with Virginia Department of Environmental Quality, who maintains regulatory oversight of this stormwater management facility, and DR Horton, the developer who installed and holds an open construction permit for the facility.

Findings/Current Activity

An on-site meeting was held 16 June 2025, attended by Dale Chestnut (DEQ), Rick Figert (resident), Harry Lee Arnold, Jr., Terry Russell, and Jean Petti. A inspection report from Inspector Chestnut is attached. The report found no deficiencies with the forebay as constructed or as currently operating.

Additionally, Jean Petti shared the complaint with DR Horton during their visit of 17 June 2025.

Recommendation

Staff proposes to continue facilitating communication between the community, DEQ, and DR Horton.

Comments: A site inspection was requested by the Town of Berryville in response to a complaint presented during a recent Town Council meeting. The complaint addressed conditions at Bio-retention B2, specifically: (1) ponding water, (2) stabilization of adjacent upland area, and (3) aesthetics.

On-site meeting conducted at Bioretention B2 with the following attendees: Mayor Harry Lee Arnold, Jr., Jean Petti (Deputy Town Manager), Terry Russell (Planner), and Rick Figert (Neighborhood Representative). Additional inspections were performed at Bio-retentions B1, B3, B4 and open space parcel A1 with Terry Russell.

- (1) Ponding water: The observed ponding occurs within sediment forebays, which serve as pre-treatment features in the stormwater system. These forebays allow temporary or permanent ponding. Maintenance is not required unless sediment accumulation reaches 50% of the forebay's volume.
While safety concerns regarding ponding were noted, fencing is permissible around stormwater facilities provided posts do not compromise bio-retention liners. Fencing must also comply with HOA requirements and local ordinances, and gates must be included, as needed, to ensure maintenance easement access.
- (2) Upland Stabilization: Although a small section of the upland slope lacks complete vegetative cover, the site area meets the specification threshold for permanent stabilization. Overseeding is recommended to enhance vegetative density but is not a permit requirement.
- (3) Aesthetic Concerns: To address concerns related to the visual condition of the forebay area, residents may consult with a licensed engineer. Design alternatives are available that may improve aesthetics for residents while preserving treatment function. Major design amendments will need to be submitted to DEQ's stormwater plan review department for approval.

Aside from the required corrective action for Bio-retention B3, remaining bio-retentions were observed to be functioning in accordance with design intent. Bio-retention B4 was observed to had recently been re-seeded and mulched. Maintenance staff was also observed replacing sod around Bio-retention B2.

Permit Notice of Termination (NOT) is in progress. Final documentation required is a Maintenance plan (exhibit) and As-Builts with BMP Certification from engineer and court receipt showing recorded maintenance agreement. Please ensure that as-built certification includes count of plants surviving in the bioretention and addresses the change to ADS from PVC for cleanouts ensuring they do not allow bypass and other relevant information showing construction in accordance with the approved plans.

In response to this report, please provide photographs of completed corrective action items prior to the deadline.
